BRAND IDENTITY

TRAIL

Don’t just get there.
Discover along the way.

Every person leaves a trail.
Every trail can lead to something worth discovering.

TRAIL is a discovery platform built around the idea that exploration is not only about reaching a destination — it is about discovering what exists along the way.

CURIOUS · UNEXPECTED · HUMAN
ACTIVE · CONTEMPORARY

From destination to journey

TRADITIONAL DISCOVERY

“Where should I go?”

People typically discover individual destinations through:

Search → Compare → Choose → Navigate

The destination becomes the end goal.

TRAIL

“What can I discover?”

TRAIL changes the experience into:

Interest
↓ Discovery
↓ Connected Places
↓ Journey
↓ More Discoveries

CORE BRAND SHIFT

DESTINATION ↓ JOURNEY

TRAIL is built around the belief that the journey itself can become the experience.

Discovery happens along the way

Some of the most memorable moments in a city are not always planned. You may start by looking for one destination and discover something completely different along the route.

EXAMPLE

01 A small café
|
02 A hidden bookstore
|
03 Unexpected street art
|
04 A local bakery
|
05 A viewpoint discovered by taking the longer route

The destination gets you moving.

The discoveries along the way make the journey memorable.

TRAIL transforms these unexpected discoveries into journeys that people can intentionally explore.

START → DISCOVER → WANDER → FIND → CONTINUE

Why TRAIL exists

MISSION

“To help people discover meaningful places and experiences by transforming ordinary routes into personalized journeys of exploration.”

VISION

“To create a world where every journey becomes an opportunity for discovery.”

BRAND PROMISE

TRAIL helps people spend less time planning where to go and more time discovering what is along the way.

THREE PRINCIPLES

- **DISCOVER**
  Find places beyond the obvious.
- **CONNECT**
  Turn individual places into a meaningful sequence.
- **EXPLORE**
  Experience the journey rather than simply reaching the destination.

ORDINARY ROUTE ↓ CONNECTED DISCOVERIES ↓ MEANINGFUL JOURNEY

Who is TRAIL?

If TRAIL were a person, it would be:

The curious local friend who knows the interesting places others miss.

Someone who notices what others overlook, knows interesting corners of a city, encourages you to take the unexpected route, is curious without being overwhelming, and makes exploration feel natural.

BRAND PERSONALITY

CURIOUS

Always looking for something worth discovering

UNEXPECTED

Encourages routes beyond the obvious

HUMAN

Feels like guidance from someone who knows the city

ACTIVE

Encourages movement and exploration

CONTEMPORARY

Modern, digital and relevant

TRAIL should feel like exploration software, not navigation software.

AVOID

Corporate · Generic travel app · Tourist brochure · Overly futuristic · Generic AI assistant · Conventional map/navigation product

The people behind the trail

PRIMARY AUDIENCE

Curious young explorers

Students and young adults who enjoy discovering new places, explore independently or with friends, have limited time, don’t always want highly planned itineraries, prefer local or less-obvious experiences, and are comfortable with digital platforms and mobile apps.

SECONDARY AUDIENCE

Local explorers & trail creators

People who know interesting local places, enjoy creating routes, want to share experiences, can contribute curated trails, and help introduce lesser-known discoveries.

SHARED MOTIVATION

“I want to explore something interesting, but I don’t want to spend my whole day planning it.”

How TRAIL looks

TRAIL’s visual language is built around the visual vocabulary of exploration.

PATHS

Represent movement and journey

DOTS

Represent discoveries and stops

ARROWS

Represent direction and continuation

COORDINATES

Represent place and location

ROUTE NUMBERS

Represent sequence and progress

METADATA

Represent distance, time and context
